TARGET AUDIENCE & OBJECTIVES

This course is designed to present current information on the diagnosis and management of selected diseases commonly seen by Arkansas otolaryngologists.

At the conclusion of this activity, the participant will be able to:

- Accurately diagnose and manage patients presenting with sinonasal disorders.
- Discuss new treatments for chronic sinusitis, nasal polyps, and nasal congestion.
- Differentiate between pediatric and adult sinusitis, including diagnosis and treatment.
- Consider the office-based treatments of sinonasal disorders.
- Access the treatment options for pediatric vocal cord paralysis.
